NEW! **FX-LC** is a light-cure, resin-reinforced glass ionomer restorative that delivers high strength, efficiency, and value. Its New Generation Acrylamide monomer optimizes polymerization for superior compressive strength versus leading competitors, supporting longer-lasting

restorations with less marginal breakdown. Unique Tri-Cure Technology (light, glass ionomer, and chemical curing) enables bulk filling up to 4mm while maintaining high fluoride release, self-adhesive bonding, and moisture tolerance—ideal for high-caries-risk and challenging cases. FX-LC eliminates the need for a separate conditioner, cures in just 10 seconds, and features an improved capsule design for better posterior access, visibility, and workflow efficiency.
